History: This message has been replied to

This property was part of the VB/I70 Site . The soil was sampled and the concentrations of arsenic and lead were below the cleanup levels.

Hi Jack,

Carrie from Countrywide (reality?) needs to know if 5123 Milwaukee Street, Denver part of the VB/I-70 or the ASARCO/Globe Superfund Site?

Carrie believes that the property is in the Swansea neighborhood.

Would you please let me know if indeed it is within either boundary and if so, was the yard part of the OU1 cleaned up.

Thanks,

Russ
